BOOK SYNOPSIS

Building on his monumental revision of the Seventh Edition, Peter Burkholder has refined an inspired narrative for a new generation of students, placing people at the center of the story. The narrative of *A History of Western Music* naturally focuses on the musical works, styles, genres, and ideas that have proven most influential, enduring, and significant—but it also encompasses a wide range of music, from religious to secular, from serious to humorous, from art music to popular music, and from Europe to the Americas. With a six-part structure emphasizing the music's reception and continued influence, Burkholder's narrative establishes a social and historical context for each repertoire to reveal its legacy and its significance today.

A HISTORY OF WESTERN MUSIC EIGHTH EDITION - Are you looking for Ebook *A History Of Western Music Eighth Edition* ?
